## SUMMARY:

Full stack software developer with expertise in front-end and back-end development, well-versed in technology and writing code to create systems that are reliable and user-friendly, confident communicator, strategic thinker and innovative creator.

## TECHNICAL SKILLS:

- **Frontend** - JavaScript, React Js
- **Backend** - Node.js, Express.js
- **Database** - mySql, MongoDB

## EXPERIENCE:

**MERN Developer Intern** - Edumix Technologies Pvt Ltd | March 2024 – Present

- **Developed Full-Stack Application:** Contributed to designing and developing full-stack applications using MongoDB, Express.js, React, and Node.js (MERN).
- **API Development and Integration:** Built and integrated RESTful APIs, facilitating seamless communication between front-end and back-end system.
- **Front-End Development and Collaboration:** Designed responsive user interfaces in React and collaborated with cross-functional teams to deliver high-quality software solutions.
- **Database Management and Troubleshooting:** Managed MongoDB databases and resolved bugs and performance issues to maintain optional functionality.
- **Agile Methodologies and Version Control:** Participated in Agile development processes and utilized Git and GitHub for version control and collaborative code reviews.
- **Learning and Development:** Continuously learned and applied new technologies and best practice in MERN stack development.

**Web Developer Intern** - Internshala Trainings, Online | Apr 2023 - May 2023

- **Successfully completed a 8 weeks online certified training on Web Development.** The training consisted of HTML, CSS, Bootstrap, DBMS, PHP, JS, React, and Final Project modules. In the final assessment, I scored 88% marks.
- **Responsive Design:** Implement responsive design techniques to ensure websites are mobile-friendly and accessible across different devices.
- **Bug Fixing and Optimization:** Identified and resolved bugs, optimized site performance and ensured cross-browser compatibility.

## PROJECT:

[\[Link\]](#) Collab-Hub - Mini Project

- Collab-Hub connects people based on interests, skills, and goals using advanced algorithms, fostering productive collaborations across various projects and hobbies.

**Tech Stack:** React Js, Node.js, MongoDB, Express.js

## EDUCATION:

**Nagpur University, RTMNU** | Bachelor's Degree of Technology in Computer Science and Engineering | 2022-2025
